                                    San Jose, California
                                    October 4, 1995

COMMISSIONER OF PATENTS AND TRADEMARKS
Washington, D. C. 20231

                          AMENDMENT

Sir:

    This is a response to the Office Action dated April 6,

1995. A three month extension of time, extending the period

for response to October 6, 1995, is requested in an

accompanying petition. Please amend the above-identified

application as follows:

                        IN THE CLAIMS

    69. (Amended) In a computer system, a relational database

processing system for retrieving a [selected] desired entity

instance record, said relational database processing system

comprising:

        memory means containing (i) entity definition table

    means comprised of at least one entity type record

    defining an entity type, (ii) entity instance table means

    comprised of at least one entity instance table, wherein

    each entity type record of said entity definition table is

    associated with an entity instance table, and wherein each

    entity instance table is comprised of a plurality of

    entity instance records wherein each entity instance

    record is of an entity type of said entity definition

    table means, (iii) relation definition table means

    comprised of at least one relation type record defining a
